

# OPTEL CERTA™

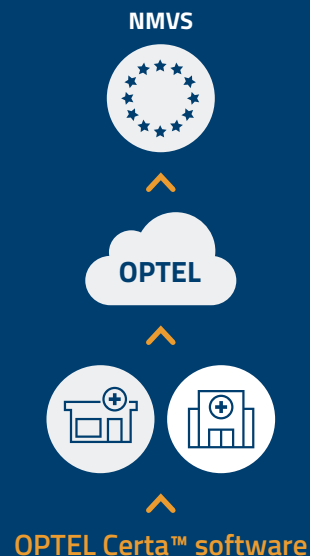

## SOFTWARE

AN EASILY INTEGRATED, FLEXIBLE SOLUTION FOR 100% COMPLIANCE  
WITH THE EU FALSIFIED MEDICINES DIRECTIVE

Developed with OPTEL's 30 years of expertise in serialisation, **OPTEL Certa™ software** performs 2D barcode verification as well as decommissioning of prescription medication. In addition, by ensuring fast, safe and secure communication with the National Medicines Verification Systems (NMVS) of countries across the European Union, this unique, web-based tool provides healthcare professionals with an immediate solution for compliance with the European Union's Falsified Medicines Directive (EU FMD). OPTEL Certa™ software can be integrated into existing pharmacy systems or can be used with OPTEL's compatible high-speed ergonomic scanning devices.

**Certa** is designed to help hospital and retail pharmacies make healthcare more efficient by leveraging collected data. This process provides unmatched visibility into pharmacy operations and enables staff to focus efforts on what truly matters: delivering the highest quality of patient care.

# OPTEL CERTA™ SOFTWARE

## KEY FEATURES

- Software specially designed for pharmacies and EU FMD compliance, with the following native functions:
  - Verification
  - Decommissioning
  - Reverting
  - Dispensing and Undo Dispensing
  - Sampling and Undo Sampling
  - Destruction
  - Security and Logging
- Scanned or manual entry of Electronic Product Codes
- Guaranteed data protection
- Simple and immediate EU FMD compliance and communication with the NMVS
- Improved operations visibility for administrators
- Efficient integration with minimal assistance from the IT department
- Easy installation
- Simple operational design requiring minimal staff training
- Extensive security features, such as:
  - Private cloud platform
