

Tax Management Solution

REAL-TIME INSIGHTS TOWARDS A FULLY INTELLIGENT SUPPLY CHAIN

Governments are extending excise tax collection programs beyond traditional luxury goods in order to finance post-pandemic economic recovery and healthcare programs. Traditionally, physical tax stamps have been used, yet the industry is now looking towards a more innovative solution that tackles additional issues such as counterfeit and fraud. Track and trace systems and digital tax stamps have come in to help meet these challenges, as well as solve emerging issues such as implementing stamps on high-speed production lines, reducing stamp costs, and reinforcing security requirements.

COMPLYING WITH TAX MANAGEMENT PROGRAMS

OPTTEL offers a scalable and modular Tax Management Solution that uniquely marks, inspects, tracks, traces and validates your products throughout your supply chain. With our technology, you will not only be able to comply with regulations and mitigate counterfeit, but you will also have access to valuable data that enables real-time visibility on your operations and supply chain efficiency. Whether you produce beer, soft drinks, bottled water, or any other excise product, get compliant with tax collection programs with OPTTEL, a leading provider of vision systems, track-and-trace technology, and Intelligent Supply Chain solutions.

TAX MANAGEMENT SOLUTION - OVERVIEW

HOW OPTEL'S TAX MANAGEMENT SOLUTION WORKS

1 CONNECT AND ORDER

Connect to a serial number provider (i.e. OPTEL's Verify Platform, or a third party system) to securely order your serialized digital tax stamps.

2 SERIALIZE

Determine the best product marking approach for your product: direct marking or label application, and use OPTEL's marking expertise to keep your line's performance.

3 REPORT

Inspect products and collect all data needed to comply with Tax Stamp Programs. Store your production data in OPTEL's secure platform.

4 LEVERAGE

Leverage your Tax Stamp solution to digitize your supply chain and gain business insights through OPTEL's Intelligent Supply Chain Solution.

TAX MANAGEMENT SOLUTION

KEY FEATURES

- Modular and scalable approach.
- Secure and fast API integration with 3rd party government-approved tax management solution providers.
- High speed product marking - up to 60,000 products per hour.
- World class vision systems fully integrated with your production lines.

BENEFITS

- Secure digital tax stamp orders and reports, meeting all tax program requirements.
- Steady line performance with OPTEL's scalable and non-intrusive solution, which reduces investment cost.
- Brand protection using enhanced security features that help against counterfeit and smuggling.
- Real-time insights towards a fully Intelligent Supply Chain.
- Highly qualified professional services that support and optimize your project implementation.

GOVERNMENT AND THIRD PARTIES

SECURE TAX STAMP AND S/N GENERATION

Securely connect to a partner to order serial numbers or use OPTEL Verify Platform to generate your own.

TAX RECONCILIATION AND REPORTING

Report your production to comply with tax program.

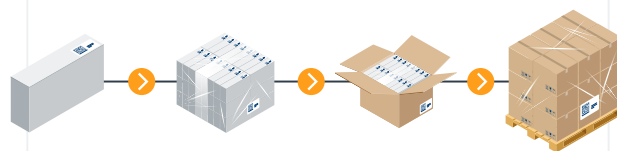

PRODUCT AUTHENTICATION AND BRAND PROTECTION

Protect your brands from counterfeit using OPTEL Product Explorer and Verify Platform.

HIGH PERFORMANCE DIRECT PRODUCT MARKING

High Speed Product Marking using various OEM printers. Multiple substrates and code support. Retrofit and integration with existing lines, while securing your line's performance.

TRACK AND TRACE

High Speed product inspection and aggregation.

OPTEL INTELLIGENT SUPPLY CHAIN ECOSYSTEM

Leverage production data for further business analysis.
